## TECHNICAL INFORMATION

PRIMERA 2000 SATIN LATEX

502-02004-000

## DESCRIPTION

SUR PRIMERA 2000 SATIN LATEX is a good quality paint, improved with a new formula that allows it to handle nanoparticles so small that they prevent water infiltration, keeping the surface clean for longer. It is easy to apply, has good leveling and good performance.

## USE

It can be applied in interiors or roofed exteriors, on concrete, brick, plywood, fiber cement, drywall or wood.

| Structure | Walls, Doors, Structural elements (column, trusses, etc.) |
| :--- | :--- |
| Exterior/Interior | Interior, Roofed Exterior walls. |
| Surface | Concrete Surface, Painted Surfaces, Light Board, Gypsum, Fiber Cement, <br> Wood |
| Product line | Architectonic |
| CHARACTERISTICS |  |
| SPECIAL PROPERTIES |  |

| Finish | Fine texture |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Hiding Power | $\bullet$ | $\ominus$ | $\ominus$ | $\bigcirc$ | $\bigcirc$ |
| Weather resistance | $\bullet$ | $\ominus$ | $\ominus$ | $\bigcirc$ | $\bigcirc$ |

| PHYSICAL PROPERTY | DATA |
| :--- | :--- |
| Weight solids (\%) | $52-54$ |
| Weight per Gallon (kg/gal) | $4.7-4.9$ |
| Volume Solids (\%) | $40-42$ |
| Stormer Krebs Viscosity (Ku) | $100-110$ |
| Theoretical Yield (m²$/ \mathrm{Gallon})$ | $62 \mathrm{~m}^{2} @ 1 \mathrm{mil}$ |

Definition of theoretical yield: Maximum surface that a paint can cover under ideal conditions. Practical performance varies depending on type of surface, used tool, applicator experience and other factors. $1 \mathrm{mil}=0.0254 \mathrm{~mm}$.

Note: scale is from 1 to 5 , where 5 is the best value.
These data were taken from white paint, there can be a minimum variation in other colors, specially in VOC's In some intense colors, the paint yield can vary, since more layers could be necessary.

## PRESENTATION

## AVAILABLE PRESENTATIONS

1/4 gallon metal can (0.946 It)
1 gallon metal can ( 3.785 It )
5 gallon plastic bucket (18.925 It)

## AVAILABLE COLORS

Available in every color of our Surmix tinting system.

## SURFACE PREPARATION

CONDITION INSTRUCTION

| Concrete | All new surfaces must be fully cured, usually about 30 days (setting time), dry and clean. <br> Apply a coat of White Sealant 522-000 and coat with this finish. |
| :---: | :---: |
| Gypsum Board | Plaster the surface, sand and thoroughly clean residual dust with a clean microfiber cloth. <br> Apply a coat of White SEALANT 522-000 diluted with 20 to $25 \%$ of clean water for a better penetration and coat with this finish. |
| Drywall or fibercement | Thoroughly clean the entire surface to remove any dust or other contaminants, then apply a coat of White SEALANT 522-000. Finally apply this finish. |
| Wood | Repair old nail holes or hairline cracks with Wood Putty 800-***, sand and dust thoroughly, then apply a coat of UNIVERSAL SEALANT 530-000 and apply this finish. |
| Mildew | Apply Antifungal Solution 334-900, let on the surface for some 20 minutes. Rinse with enough clean water and scrub the area. <br> Where washing is not possible, apply NIT CLINICAL DISINFECTANT CLEANER 4 33260-600, scrub with a microfiber cloth, apply again and led dry on the surface. <br> After cleaning, be sure the surface is thoroughly dry before applying a coat of White Sealant 522-000 and this finish. |
| Micro cracks, fissures or cracks in masonry or concrete | Micro cracks: ( 0.1 mm to 0.5 mm ): Apply an elastomeric finish. Fissures ( 0.6 mm to 2 mm ): Fix with Elastomeric Putty PEGA PATCH 231000. Then apply a coat of this finish. <br> Cracks ( 3 mm to 20 mm ): Use ETIBOND CONCRET 550, immediately, while still fresh, apply MR-520 Repair Mortar. Cure this mortar for at least |

## TECHNICAL INFORMATION

PRIMERA 2000 SATIN LATEX

|  | 15 days before applying a coat of this finish. <br> Note: For cracks wider that described here, visit our website for the <br> Virtual Assistant or ask our Customer Service as indicated below. |
| :--- | :--- |
| Humidity or rising damp on <br> masonry walls | On surfaces that have been repaired because of humidity or rising damp <br> it is not advisable to apply acrylic plaster, satin or gloss finishes. |
| Mild Dusting | Apply a coat of Clear Sealant 501-910, let dry and finish with this <br> product. <br> Note: Evaluate dusting problem to determine if the surface can be painted <br> or other reparation is required. |
| Gloss or satin areas | Clean and degrease all surface. <br> Apply a coat of Universal Sealant 524-000 to ensure the adherence of any <br> paint, either water or solvent base. <br> Then apply this finish. |

## PRODUCT PREPARATION

## COMPONENT

Product: 502-02004-000, PRIMERA 2000
SATIN LATEX
Diluent: Water

## MIXING RATIO <br> MIXING INSTRUCTIONS

Stir well before use

## Maximum 10\%

## PRODUCT APPLICATION

## IT CAN BE APPLIED WITH

Airless spray

$\$$
Spray gun (gravity or suction feed)

## Brush

Apply with natural or synthetic brushes that does not detach bristles.

## Roller application

Microfiber or anti drip felt.
Smooth surface: $3 / 8$ " or $1 / 2^{\prime \prime}$ felt.
Rough surface: 3/4" felt.

## Application by air spray

| Nozzle | 1.3 mm. |
| :--- | :--- |

Pressure
35 psi.

## Airless spray application

| Nozzle size | $\# 517$ |
| :--- | :--- |
| Pressure | 1500 psi |
| Application conditions |  |

Do not paint very hot surfaces or directly exposed to the sun, the paint will evaporate too fast and that will impair adherence and durability.
Do not apply when ambient humidity exceeds $85 \%$ or in a rainy day, because it would alter some characteristics of the application or the performance of the product.

## Number of layers and thickness

| Dry Coat Thickness | 1 mil |
| :--- | :--- |
| Number of Coats | 2 at least |

## Drying times

| Dry-to-Touch Time | 30 minutes |
| :--- | :--- |
| Recoat time | 2 hours |
| Total drying time | 5 a 7 days |

Drying times listed are under ideal conditions (Between 22-28 ${ }^{\circ} \mathrm{C}$ temperature and $50-80 \%$ relative humidity). These times are dependent on temperature, moisture, film thickness and dilution.

## OBSERVATIONS

$\checkmark$ Keep container tightly closed in a ventilated place, between 20 and $30^{\circ} \mathrm{C}$, out of reach of children.
$\checkmark$ If you use more than one container, mix them in advance to match any possible color differences.
$\checkmark$ Do not wash painted surfaces with abrasive detergents, better use liquid detergent with enough water and a soft sponge.
$\checkmark$ If you need more information, one of our technicians will assist you. Call 800-SUR-2000 or email us at customerservice@gruposur.com

## HEALTH

$\checkmark$ If you need to dispose of empty containers of our products in Costa Rica, contact your SUR Color paint store or our industrial compound in La Uruca, San Jose.
$\checkmark$ The user of this product may need the appropriate Personal Protection Equipment (PPE), as described in its Safety data Sheet (MSDS), available at http://www.gruposur.com
