

**DESCRIPTION**

Garlic Protein Salt is a supplement for animal feed. Thanks to its composition enriched with garlic and oregano, it reduces bat bites and stings from Hematobia irritans (horn flies) When this product is supplied to cattle in a well-balanced diet, the animals will produce the expected outcomes. Additionally, it has oregano oils that help to reduce methane production.

**USE**

Its use is recommended throughout the day since it provides nutrients that activate bacteria for better digestion of forage in ruminants.
