

INFORMACIÓN TÉCNICA

MULTI SIK LPU

Liquid Fertilizer

556-53421-000

DESCRIPTION

MULTI SiK LPU is a Ready-to-Use liquid fertilizer, composed of soluble Silicon and Potassium. Silicon strengthens the cell wall and gives structural support to the leaves and other parts of the plant, stimulates resistance or natural tolerance against pests and diseases. It also prepares plants to better respond to stress caused by weather, pest attack or attack by diseases.

Potassium help to move water and nutrients within the plant, reduces the negative effects of stress caused by high temperatures or lack of water

USE

MULTI SiK LPU does not require dilution, it is applied directly on the leaves, it is an excellent source of potassium and silicon that can be used in all types of garden or orchard plants. Can be used indoors or outdoors.
