

TECHNICAL INFORMATION

SUSTRATO UNIVERSAL

Universal Potting Mix

556-54060-000

DESCRIPTION

SUSTRATO UNIVERSAL is a mixture of natural mineral and organic materials, which promotes conditions for the proper growth and development of garden or orchard root and plants. It can also be used mixed with soil to improve its chemical, physical, and microbiological conditions.

Its medium to high moisture retention and adequate aeration allows development of plants at every stage of growth.

USE

SUSTRATO UNIVERSAL can be used alone or mixed with soil to grow every kind of plants, especially tropical plants such as Geraniums, Araceas, Ferns and others.

It can be mixed with soil in different proportions, depending on the desired final texture.

to the desired height, leaving no empty spaces.

After transplanting, add water slowly until it comes out of the drainage holes.

To mix it with soil: add SUSTRATO UNIVERSAL in proportion of at least 20% of the total amount of soil (200 ml of SUSTRATO UNIVERSAL per 800 ml of soil). Mix evenly all ingredients.

Add water slowly until it comes out of the drainage holes. Mixing percentages may vary depending on the texture of the desired soil mix.

Watering periods vary depending on the plant's needs and climate.

Not recommended for Orchids.

NOTICE

- ✓ If you need more information, check our website <https://www.gruposur.com/asistencia/>
- ✓ Container must be kept out of reach of children, tightly closed in a ventilated place, away from sunlight or intense heat.

HEALTH

- ✓ If you need to dispose of empty containers of our products in Costa Rica, contact your SUR store or our industrial compound in La Uruca, San Jose
- ✓ The user of this product may need the appropriate Personal Protection Equipment (PPE), as described in its Safety data Sheet (MSDS), available at <http://www.gruposur.com>
