## SUSTRATO PARA SUCULENTAS

Substrate for Succulents

556-54070-000

### DESCRIPTION

El SUSTRATO PARA SUCULENTAS is a potting mix especially formulated for succulents, composed by lightweight mineral and organic materials that retain moisture, maintain aeration, prevent compaction, and favor rapid drainage of excess water, so it favors the proper development of roots of the plants. Its low to medium moisture retention and adequate aeration allows development of plants from transplantation to production.

### USE

SUSTRATO PARA SUCULENTAS can be used alone or mixed with soil to grow plants that require good drainage, low to medium water retention and high aeration of the substrate, such as Succulents, Cactus, Violets, Gloxinias, and others. It can be mixed with topsoil in different proportions, depending on the desired final texture.

Line Agricultural Line

### PROPERTIES

#### SPECIAL PROPERTIES

Physical State Solid

#### PHYSICAL PROPERTIES

#### DATA

Density (g/ml)

0.15 - 0.35

Moisture Retention ml/ml

0.7 - 0.8

### CONTAINERS and COLORS

#### AVAILABLE CONTAINERS

5 liter Plastic bag

### PRODUCT APPLICATION

#### Application Instructions

# TECHNICAL INFORMATION

## SUSTRATO PARA SUCULENTAS

Substrate for Succulents

556-54070-000

---

To transplant; fill the pot to half or  $\frac{3}{4}$  capacity, place the plant, spread roots in all directions, finish filling the pot to the desired height, not leaving empty spaces.

After transplanting, sprinkle slowly until water pours from the drainage holes.

To mix it with topsoil; place this **Sustrato para Suculentas** in an appropriate size container, at least 20 % of the total amount of soil (200 ml per 800 ml of soil), add soil and mix thoroughly. Sprinkle slowly until the water pours from the drainage holes, then transplant.

Watering periods vary depending on the needs of each plant and climate.

It is not recommended to use for Orchids.

---

### NOTICE

- ✓ If you need more information, check our website <https://www.gruposur.com/asistencia/>
- ✓ Container must be kept out of reach of children, tightly closed in a ventilated place, away from sunlight or intense heat.

### HEALTH

- ✓ The user of this product may need the appropriate Personal Protection Equipment (PPE), as described in its Safety data Sheet (MSDS), available at <http://www.gruposur.com>
- ✓ If you need to dispose of empty containers of our products in Costa Rica, contact your SUR store or our industrial compound in La Uruca, San Jose
