## DUST CONTROL

557-53486-000

### DESCRIPTION

DUST CONTROL is a dust controlling agent for dusty roads or any terrain without any grass cover. Reduces dust pollution from earth roads or barren lots, improves stability of unpaved roads and reduces the need for frequent water spraying.

### USE

DUST CONTROL is a hygroscopic salt, which can absorb ambient moisture, protecting earth roads or terrains from evaporation, keeping it moist so that it does not release dust. It also increases stability of unpaved roads by reducing the need for water spraying to control dust.

When used in cutting fire lines, it protects moisture, so helping to contain forest or agricultural fires.

To achieve its optimal effectiveness, surface needs to be moistened prior to application.

**Line** Industrial/Professional Line

### PROPERTIES

#### SPECIAL PROPERTIES

**Form** **Liquid**

#### PHYSICAL PROPERTIES

DATA

Calcium Chloride (CaCl<sub>2</sub>) % m/v

35 - 45

Inert Ingredients % v/v

65 - 55

pH

8.5 - 10

Density

1.25 - 1.27

Application yield (L/m<sup>2</sup>)

3.785

### CONTAINERS

#### AVAILABLE CONTAINERS

800 Liter Tote tank

### PRODUCT APPLICATION
